

# CROWDFUNDING PLATFORM

We conduct IDOs  
and IGOs for promising  
crypto projects

INVEST  
FAST. SAFE.  
EFFICIENT!

**A special feature of the platform** is to provide investors with exclusive access to closed investment rounds with the most favorable purchase price tokens, as well as innovative technical solutions for partners and bloggers.

**Our platform helps to launch new crypto projects on the market,** and offers investors the opportunity to buy project tokens before their listing on exchanges!

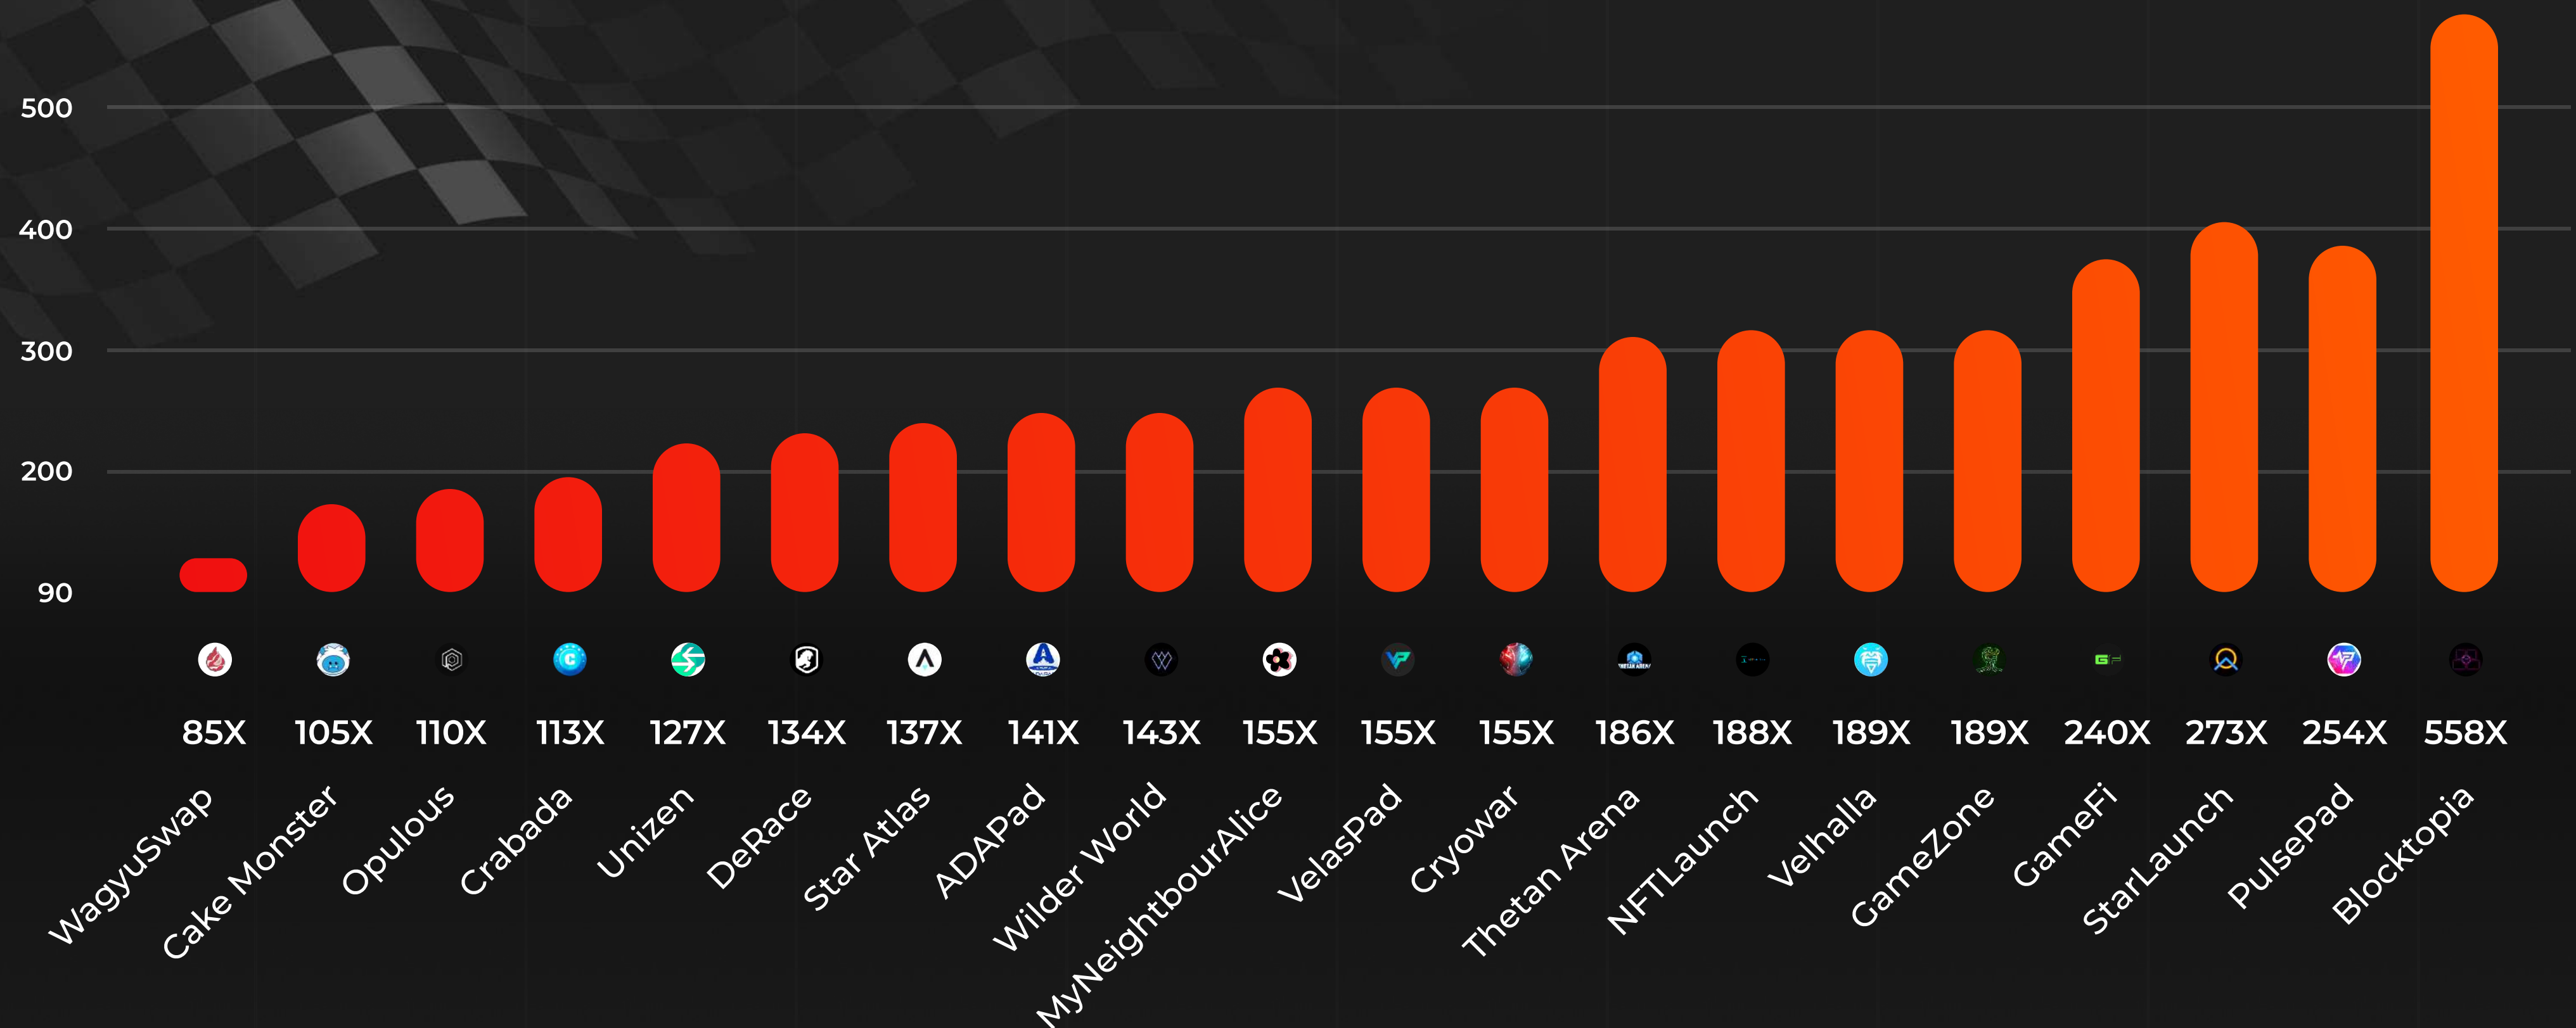

# RETURNS UP TO 500X

There is a strong demand for IDOs among investors,  
and the return on investment can be up to 500x.

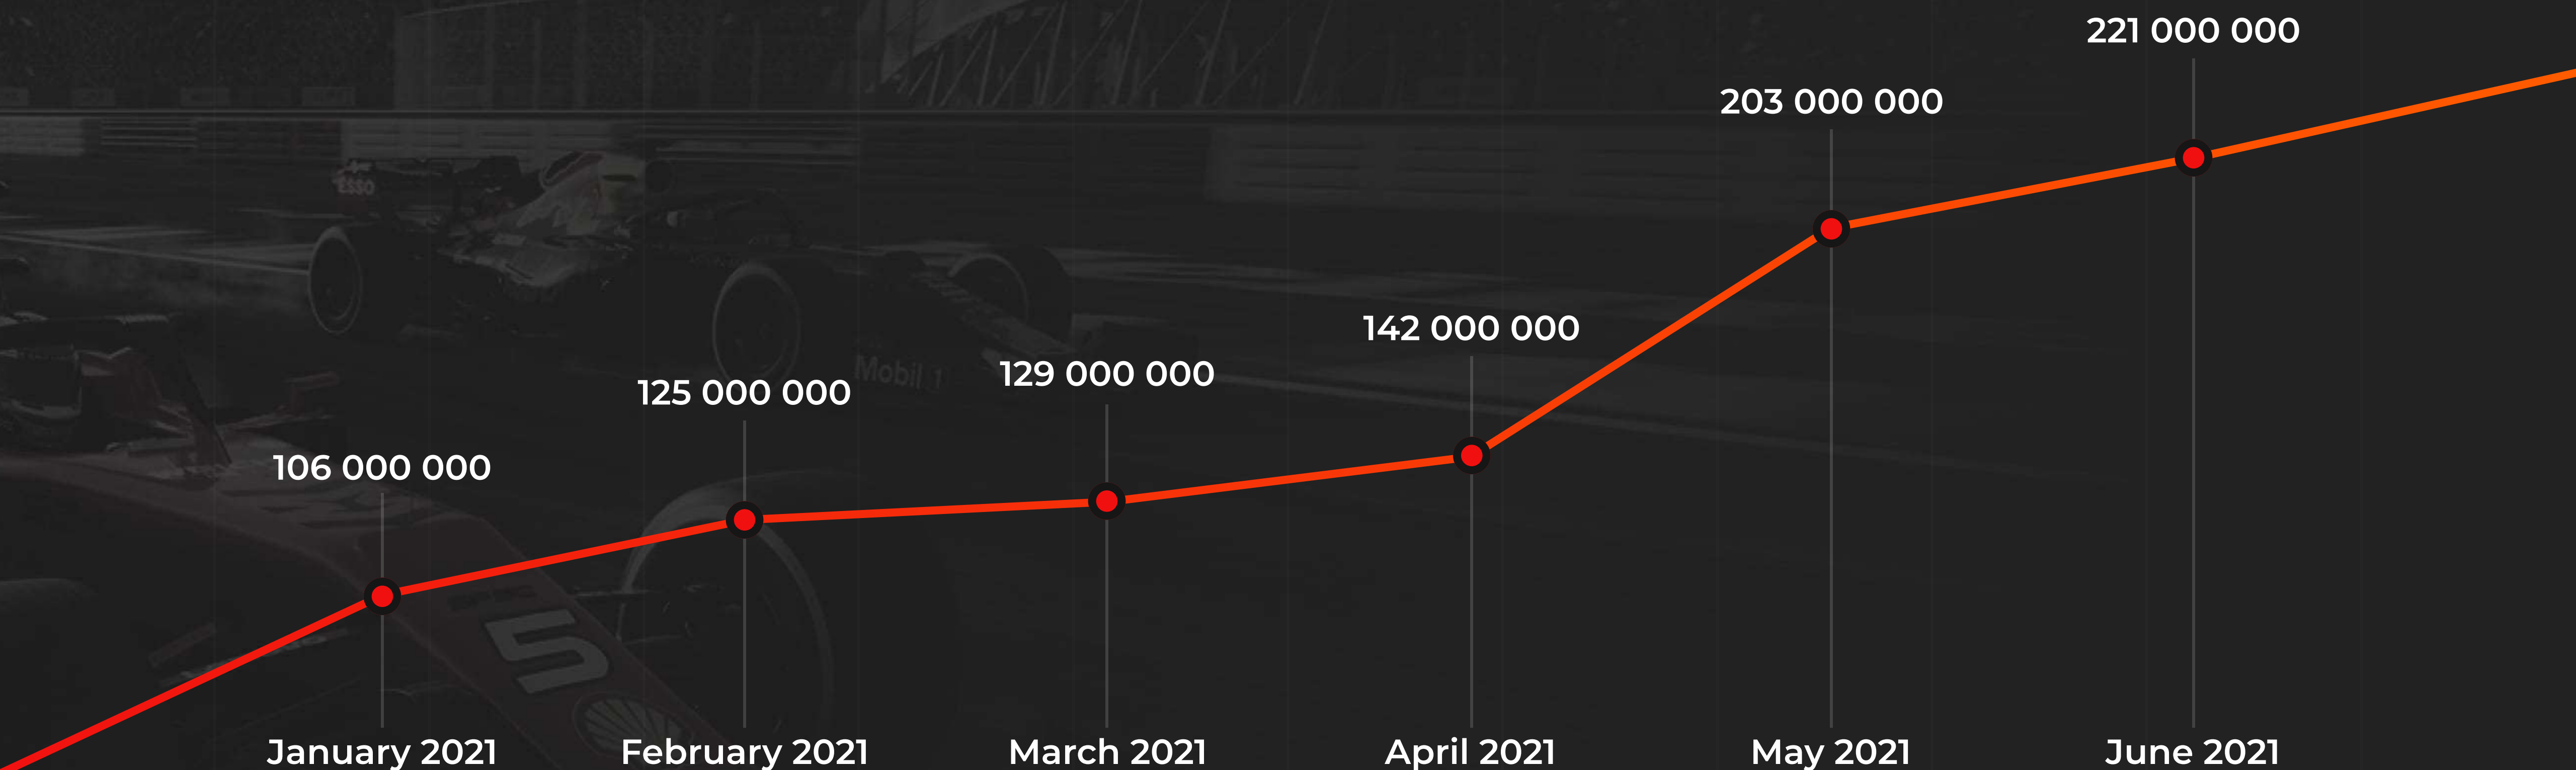

The chart shows closing prices as of November 29, 2021.

880%

The level of acceptance of cryptocurrencies in the world  
increased by more than 880%

The number of active cryptocurrency users has more than doubled.

# ECOSYSTEM

\*Access to the futures platform and to the rating of crypto managers will be provided by a SeedLaunch partner with the necessary license to conduct regulated financial activities.

# SLT TOKEN

The utility token of the SeedLaunch project is SLT, which opens access to all the features of the platform presented in the Ecosystem section.

**The SLT token has received a legal** conclusion on the legal nature of the token from the European company - **GMT Legal**. This is with the aim of reducing the risk of negative regulatory impact on the token and the project as a whole.

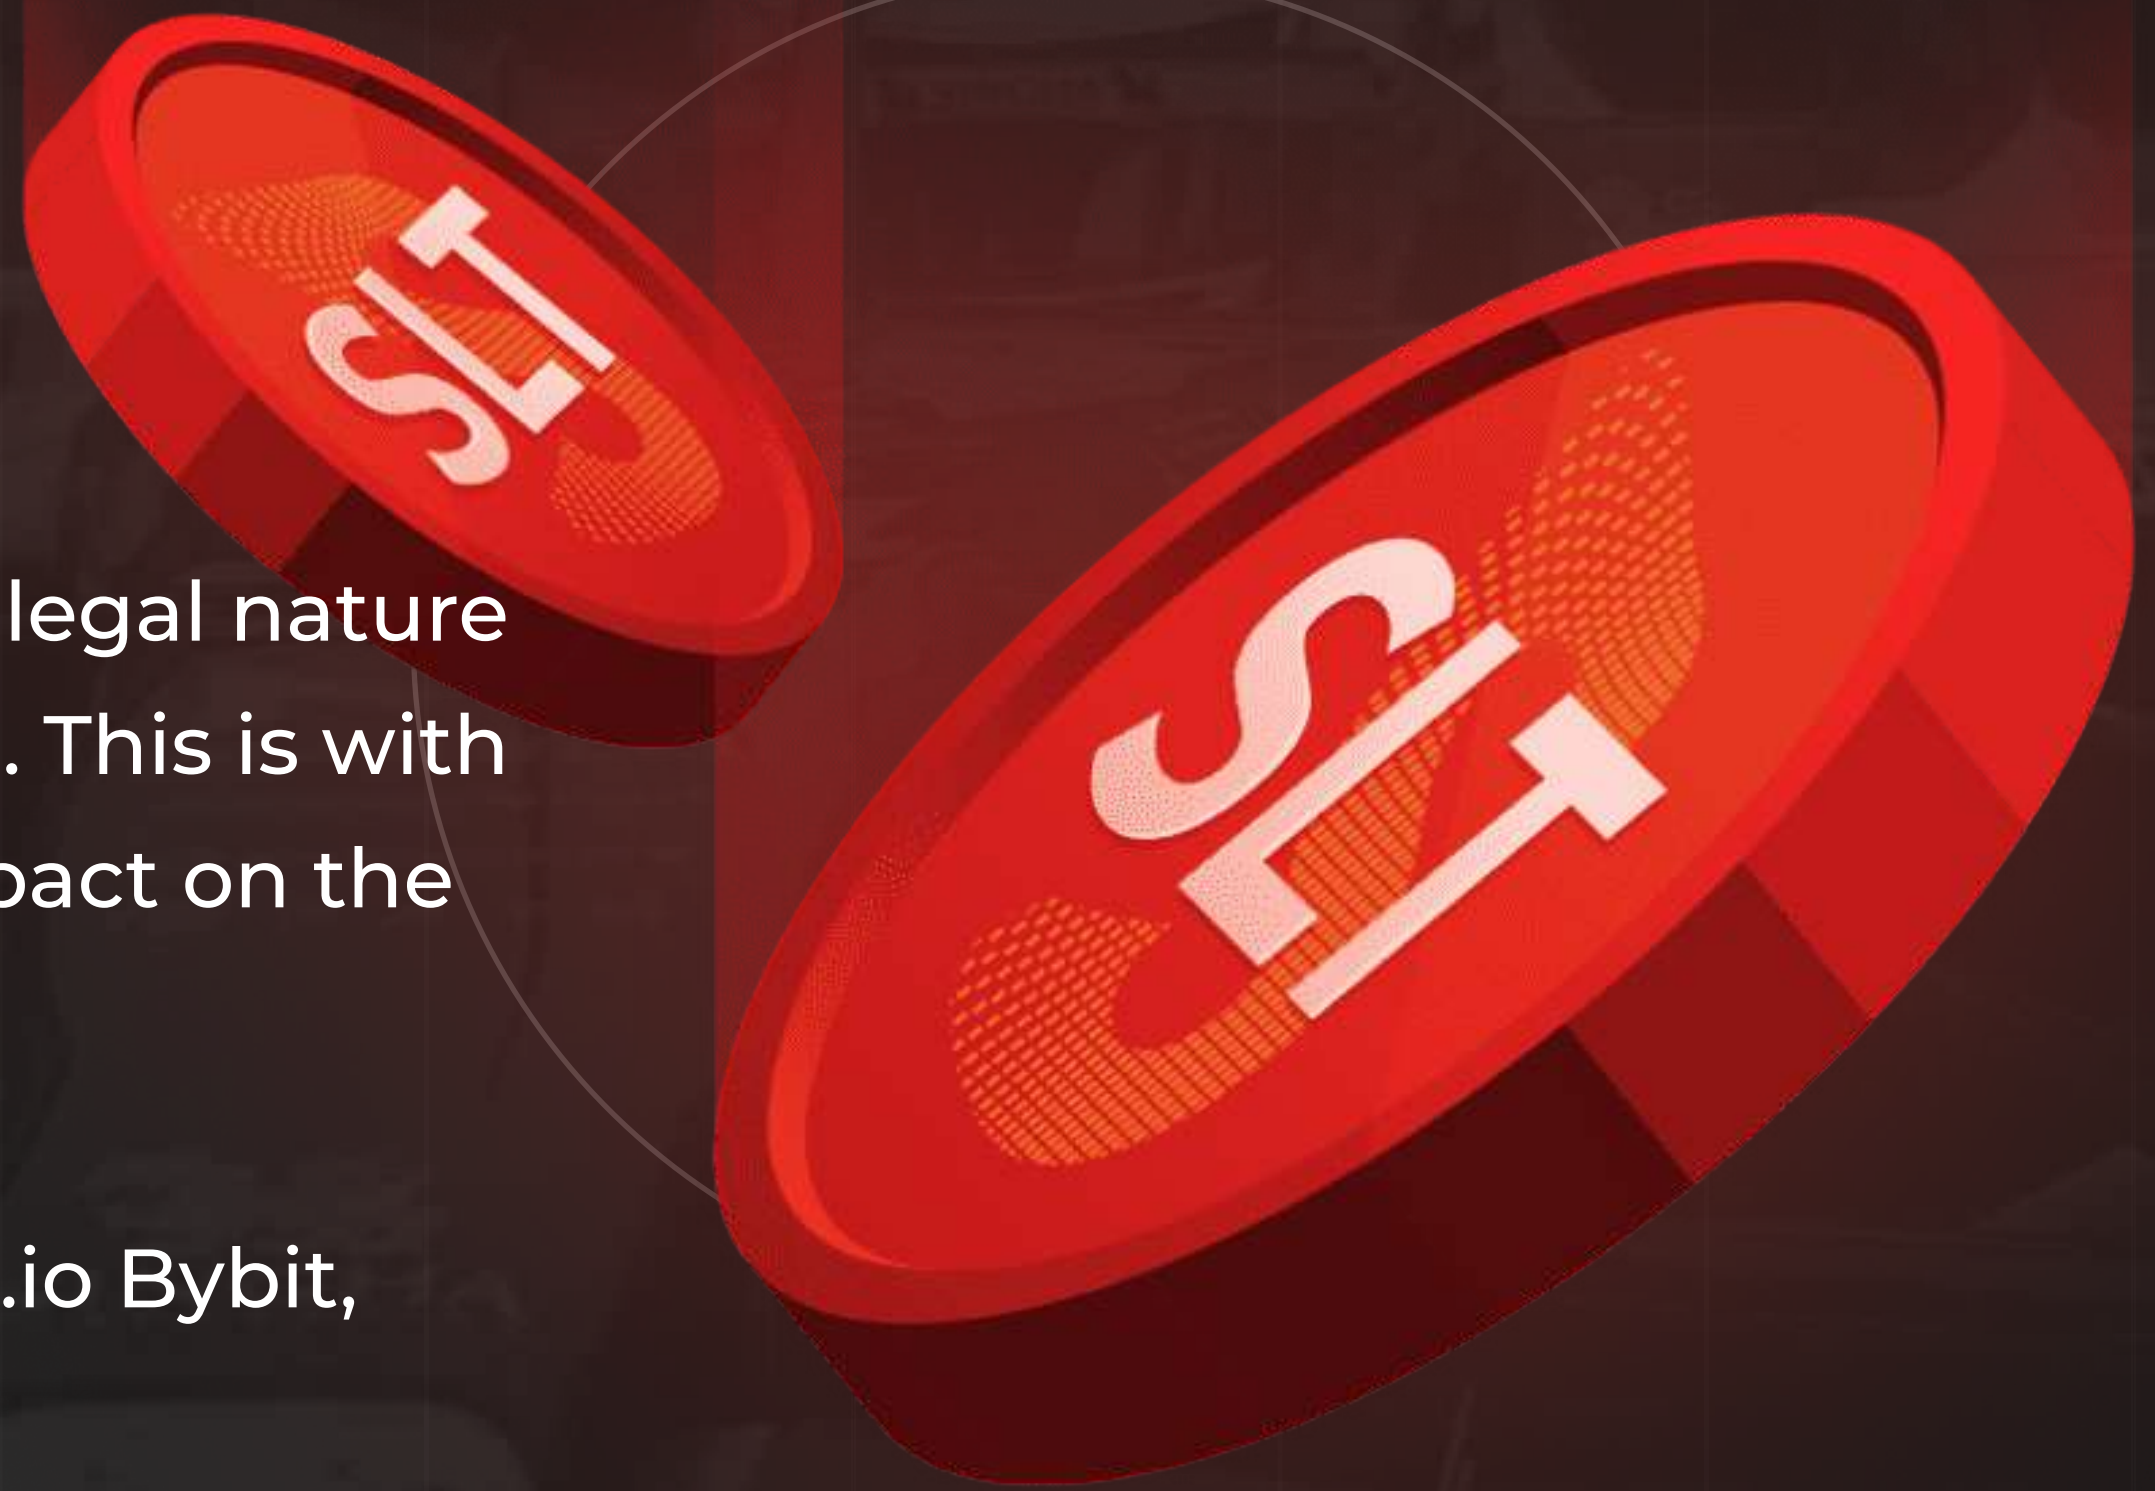

The conclusion is accepted by the top exchanges Gate.io Bybit, bitget, biconomy and others.
